

Fire Damper Access Code Changes

2021 INTERNATIONAL MECHANICAL CODE

607.4.1 Access. Dampers equipped with fusible links, internal operators or both shall be provided with an access door that is not less than 12 inches (305mm) square or provided with a removable duct section.

Fire Dampers 12X12 and smaller will require a removable Duct Section for Access

SOLUTION:

Sure-Clamp Access

Sure-Clamp Access Removable Duct Section will provide a technician with 12" of access to properly service fire dampers 50% faster.
